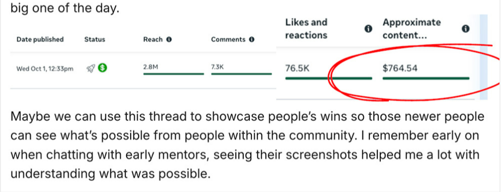
Another happy student!

My student Chris was thrilled when **he made $764** from just ONE Facebook post!

But I just wanted to share a win to show people what can happen. I had a couple smaller posts on the same page that added an extra $20-$30 but this was the



big one of the day.

Maybe we can use this thread to showcase people's wins so those newer people can see what's possible from people within the community. I remember early on when chatting with early mentors, seeing their screenshots helped me a lot with understanding what was possible.

You could be making serious money with just **one post** like Chris... now multiply that by 24 posts per day, every day, and you can see the HUGE opportunity Facebook just gifted us!

Sharing some wins for motivation

General Discussion

whoschrishughes 11d

I looked for a thread of "wins" so people can get motivated. Yesterday I had one of my pages (this page has 216k USA fans) had a post go semi-viral. I've been in this niche for a long time, so whenever stuff happens I dive in.

I check google news everyday and browse the niche Instagram account for any kinda breaking news stuff within the niche. So i'm like "on top of it" with this.

But I just wanted to share a win to show people what can happen. I had a couple smaller posts on the same page that added an extra $20-$30 but this was the big one of the day.

Maybe we can use this thread to showcase people's wins so those newer people can see what's possible from people within the community. I remember early on when chatting with early mentors, seeing their screenshots helped me a lot with understanding what was possible.

BONUS 3: A Database of 1,500 Viral Facebook Pages (Worth $149)

It's an invaluable **goldmine of real-world examples** from pages earning SERIOUS money through Facebook traffic and Content Monetization.
